Hemp oil Extract, MCT oil, Terpenes.

### SUGGESTED USE

Take once or twice daily. Squeeze out 1/2 of the dropper, wait 60-90 seconds, and swallow.

### 300MG 30ML (1OZ) NATURAL CBD TINCTURE

It seems strange to imagine that there remain folks out there uninitiated with the world of CBD. When people are looking for a full spectrum CBD tincture, there are indeed few that will actively seek out a "small" amount -- even if such an amount may offer tremendous wellness benefits.

As such, instead of simply cramming the highest possible serving in a single bottle, Pure Kana offers a CBD Tincture (300mg Natural/Unflavored) that contains a smaller overall quantity of the active component. This is an increasingly popular product among our online range, as it presents a very accessible option to folks of a wide range of circumstances. But what is it about the 300mg serving size that makes it so accessible?

### CBD TINCTURE | 300MG NATURAL, UNFLAVORED FORMULATION

Our Natural CBD Tincture does not contain any additional flavors other than MCT oil and hemp extract. This is an important thing to consider when buying Full Spectrum CBD Tinctures, as other producers will sometimes use artificial means of obtaining and manufacturing their extract (such as through fertilizers or GMO crops).

Made using the extract from hemp plant material, our natural tinctures boast a subtle "earthy" flavor. Many folks find this taste preferable over other brands, who increasingly see it necessary to saturate the hemp extract with fake, artificial fruit flavorings. With PureKana, you get the earthy, real qualities of hemp - without any substitutes.

Furthermore, the milligram amount of our CBD Tinctures (300mg) is just right for many, as it offers a milder serving size than our other, stronger (and more expensive) options. This product would be a great choice for helping with issues that may affect your day-to-day life, such as managing regular stresses, or helping maintain a good outlook on life.

However, no matter the appeal of CBD tinctures, there is always doubt as to where you can actually find a good, reliable product.
